BLUE PEARL

GRANITE
NORWAY

BLUE PEARL

Description

Blue Pearl is the most famous of the Larvik stones, sourced for the past century in the original Blue Pearl quarry in Tvedalen, Norway. A tribute to its northern origins, this stone is characterized by its large blue, pearly crystals that are set in a luxurious profound blue stone. Beautifully combined with stainless steel appliances and a vast array of cabinetry styles and colors, its structure and coloring are very constant which make it ideal for large surfaces.
