# CAMBRIAN BLACK

GRANITE

CANADA

# CAMBRIAN BLACK

## Description

Cambrian Black is extracted in Saint-Nazaire, Quebec. The quarry is situated on the largest granite plateau in North America, in the region of Lac-Saint-Jean. The quarry has the capacity to produce gigantic quantities of very large slabs with a very constant grain structure, which renders it ideal for very large projects and kitchen countertops. A luxurious black granite, always profoundly intense. This timeless Canadian classic has a distinctive look. Its fine black grain, enhanced with light grey sparkles, is comprised of a fascinating linear mineral structure.
