FANTASY BROWN

Description

Fantasy Brown is a marble extracted in northern India. This stone is more resistant to scratches than marbles such as the Carrara. The diagonal movement, the brown veining and the off-white coloration in this marble make up for an eye-catching effect. Incredibly adaptable to various styles, it can be used in a wide array of residential and commercial applications.

India has several natural stone quarries, divided into two large territories: north and south. The main granite reserves are found in the states of Rajasthan, Andhra Pradesh, Kamataka, Tamil Nadu and the new state of Telangana.
